

Safety Data Sheet

According to Annex II to REACH - Regulation (EU) 2020/878 and to Annex II to UK REACH

SECTION 1. Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Code: DL0211
Product name: NAIL FOAM

1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use: Cosmetic

1.3. Details of the supplier of the safety data sheet

Name: PASSIONE BEAUTY S.P.A.
Full address: Viale Crispi 89-93
District and Country: 36100 Vicenza (VI)
Italia
Tel.: +39 0444-239569
e-mail address of the competent person responsible for the Safety Data Sheet: quality@pucosmetica.it

1.4. Emergency telephone number

For urgent inquiries refer to: +39 0444-239569

SECTION 2. Hazards identification

2.1. Classification of the substance or mixture

The product is classified as hazardous pursuant to the provisions set forth in (EC) Regulation 1272/2008 (CLP) (and subsequent amendments and supplements). The product thus requires a safety datasheet that complies with the provisions of (EU) Regulation 2020/878.

Any additional information concerning the risks for health and/or the environment are given in sections 11 and 12 of this sheet.

Hazard classification and indication:

Eye irritation, category 2	H319	Causes serious eye irritation.
Skin irritation, category 2	H315	Causes skin irritation.

2.2. Label elements

Hazard labelling pursuant to EC Regulation 1272/2008 (CLP) and subsequent amendments and supplements.

Hazard pictograms:

Signal words: Warning

Hazard statements:

H319	Causes serious eye irritation.
H315	Causes skin irritation.

Precautionary statements:

P280	Wear protective gloves / eye protection / face protection.
P337+P313	If eye irritation persists: Get medical advice / attention.
P264	Wash . . . thoroughly after handling.

DL0211 - NAIL FOAM

SECTION 2. Hazards identification ... / >>

2.3. Other hazards

On the basis of available data, the product does not contain any PBT or vPvB in percentage \geq than 0,1%.

The product does not contain substances with endocrine disrupting properties in concentration \geq 0.1%.

SECTION 3. Composition/information on ingredients

3.2. Mixtures

Contains:

Identification	x = Conc. %	Classification (EC) 1272/2008 (CLP)
AMMONIUM LAURYL SULFATE		
INDEX	$10 \leq x < 11,5$	Eye Irrit. 2 H319, Skin Irrit. 2 H315, Aquatic Acute 1 H400 M=1
EC 218-793-9		
CAS 2235-54-3		
COCAMIDOPROPYL BETAINE		
INDEX	$5 \leq x < 6$	Eye Irrit. 2 H319, Skin Irrit. 2 H315, Aquatic Acute 1 H400 M=1
EC 263-058-8		
CAS 61789-40-0		
BENZYL ALCOHOL		
INDEX	$1 \leq x < 1,5$	Acute Tox. 4 H302, Acute Tox. 4 H332 LD50 Oral: 1230 mg/kg, STA Inhalation vapours: 11 mg/l
EC 202-859-9		
CAS 100-51-6		
DEHYDROACETIC ACID		
INDEX	$1 \leq x < 1,5$	Acute Tox. 4 H302 LD50 Oral: >1000 mg/kg
EC 208-293-9		
CAS 520-45-6		

The full wording of hazard (H) phrases is given in section 16 of the sheet.

SECTION 4. First aid measures

4.1. Description of first aid measures

General advice: none

Inhalation: The product is not considered dangerous

Skin contact: The product is not considered dangerous

Contact with eyes: Rinse with water, in case of persistent irritation consult a doctor.

Ingestion: If large quantities of product are ingested, consult the nearest poison control center.

4.2. Most important symptoms and effects, both acute and delayed

Inhalation: No significant or dangerous effects known

Skin contact: No significant or dangerous effects known

Contact with eyes: May cause irritation upon direct contact with eyes.

Ingestion: May be harmful if swallowed

4.3. Indication of any immediate medical attention and special treatment needed

Specific treatments: See section 11 for more detailed information on health effects and symptoms.

SECTION 5. Firefighting measures

5.1. Extinguishing media

Suitable fire extinguisher media: Water spray, foam, chemical powder, carbon dioxide.

Unsuitable media shutdown: None in particular.

5.2. Special hazards arising from the substance or mixture

No danger

5.3. Advice for firefighters

Not Classified

PASSIONE BEAUTY S.P.A.

DL0211 - NAIL FOAM

EN

SECTION 6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Indossare indumenti protettivi adatti (D.Lgs 81/2008)

6.2. Environmental precautions

Avoid dispersion and runoff of any spilled material and contact with soil, waterways, drains and sewers.
Inform the competent authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Material that pollutes water. May be harmful to the environment if released in large quantities. Collect spills.

6.3. Methods and material for containment and cleaning up

Small spill: stop the leak if there is no risk. Move containers from spill area. Dilute with water if soluble in water. Alternatively, or if insoluble in water, absorb with dry inert material and place in a suitable container for waste disposal. Dispose of through an authorized waste disposal contractor.

Large spill: stop the leak if there is no risk. Move containers from spill area. Approach release from against the wind. Prevent entry into sewers, waterways, basements or confined areas. Wash spills at an effluent treatment plant or do the following. Contain and collect spills with non-combustible absorbent material, e.g. sand, earth, vermiculite or diatomaceous earth and place in a container for disposal according to local regulations. Dispose of through an authorized waste disposal contractor. Contaminated absorbent material can pose the same hazard as spilled product.

6.4. Reference to other sections

See Section 1 for emergency contact information.
See Section 8 for information on appropriate personal protective equipment.
See Section 13 for more information on waste treatment.

SECTION 7. Handling and storage

7.1. Precautions for safe handling

Protective measures: Wear suitable protective clothing (Legislative Decree 81/2008).
General advice on occupational hygiene: Good industrial hygiene practices must be observed.
Provide sufficient air exchange and/or extraction in working environments.
Wash your hands before work breaks and after finishing work.
Do not eat, drink or smoke while working.
Remove all contaminated clothing immediately.
The use of dispensing equipment is recommended to minimize the risk of skin or eye contact.
See also section 8 for further information on hygiene measures.
See also section 8 for further information on hygiene measures.

7.2. Conditions for safe storage, including any incompatibilities

Storage:
Store in a well-ventilated area.
Store in a clean, dry area.
Store in accordance with local regulations. Store in the original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep the container tightly closed and sealed until ready for use.
Containers that have been opened must be carefully resealed and kept in an upright position to avoid leaks. Do not store containers without labels. Use an appropriate container to avoid environmental contamination.

7.3. Specific end use(s)

Information not available

SECTION 8. Exposure controls/personal protection

8.1. Control parameters

Information not available

8.2. Exposure controls

As the use of adequate technical equipment must always take priority over personal protective equipment, make sure that the workplace is well aired through effective local aspiration.
When choosing personal protective equipment, ask your chemical substance supplier for advice.

DL0211 - NAIL FOAM

SECTION 8. Exposure controls/personal protection ... / >>

Personal protective equipment must be CE marked, showing that it complies with applicable standards.

Provide an emergency shower with face and eye wash station.

HAND PROTECTION

Protect hands with category III work gloves.

The following should be considered when choosing work glove material (see standard EN 374): compatibility, degradation, failure time and permeability.

The work gloves' resistance to chemical agents should be checked before use, as it can be unpredictable. The gloves' wear time depends on the duration and type of use.

SKIN PROTECTION

Wear category II professional long-sleeved overalls and safety footwear (see Regulation 2016/425 and standard EN ISO 20344). Wash body with soap and water after removing protective clothing.

EYE PROTECTION

Wear airtight protective goggles (see standard EN ISO 16321).

RESPIRATORY PROTECTION

Respiratory protection devices must be used if the technical measures adopted are not suitable for restricting the worker's exposure to the threshold values considered. Use a mask with a type A filter whose class (1, 2 or 3) must be chosen according to the limit of use concentration. (see standard EN 14387).

If the substance considered is odourless or its olfactory threshold is higher than the corresponding TLV-TWA and in the case of an emergency, wear open-circuit compressed air breathing apparatus (in compliance with standard EN 137) or external air-intake breathing apparatus (in compliance with standard EN 138). For a correct choice of respiratory protection device, see standard EN 529.

ENVIRONMENTAL EXPOSURE CONTROLS

The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with environmental standards.

SECTION 9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Properties	Value	Information
Appearance	liquid	
Colour	pink	
Odour	characteristic	
Melting point / freezing point	not available	
Initial boiling point	not available	
Flammability	not available	
Lower explosive limit	not available	
Upper explosive limit	not available	
Flash point	> 60 °C	
Auto-ignition temperature	not available	
Decomposition temperature	not available	
pH	5,8-6,8	Temperature: 25 °C
Kinematic viscosity	not available	
Solubility	miscible with water	
Partition coefficient: n-octanol/water	not available	
Vapour pressure	not available	
Density and/or relative density	0,95-1	
Relative vapour density	not available	
Particle characteristics	not applicable	

9.2. Other information

9.2.1. Information with regard to physical hazard classes

Information not available

9.2.2. Other safety characteristics

Information not available

SECTION 10. Stability and reactivity

10.1. Reactivity

No dangerous reactions if stored and handled as prescribed/indicated

SECTION 10. Stability and reactivity ... / >>**10.2. Chemical stability**

Stable under recommended storage conditions.

10.3. Possibility of hazardous reactions

None

10.4. Conditions to avoid

Sunlight, unclean conditions to be avoided during storage.

10.5. Incompatible materials

No Incompatibilities

10.6. Hazardous decomposition products

Under normal storage conditions the product cannot undergo this process.

SECTION 11. Toxicological information

In the absence of experimental data for the product itself, health hazards are evaluated according to the properties of the substances it contains, using the criteria specified in the applicable regulation for classification.

It is therefore necessary to take into account the concentration of the individual hazardous substances indicated in section 3, to evaluate the toxicological effects of exposure to the product.

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008Metabolism, toxicokinetics, mechanism of action and other information

Information not available

Information on likely routes of exposure

Information not available

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Information not available

Interactive effects

Information not available

ACUTE TOXICITY

ATE (Inhalation - vapours) of the mixture:

> 20 mg/l

ATE (Oral) of the mixture:

>2000 mg/kg

ATE (Dermal) of the mixture:

Not classified (no significant component)

BENZYL ALCOHOL

LD50 (Dermal):

2000 mg/kg Coniglio

LD50 (Oral):

1230 mg/kg Ratto

LC50 (Inhalation vapours):

8,8 mg/l/4h Ratto

STA (Inhalation vapours):

11 mg/l estimate from table 3.1.2 of Annex I of the CLP
(figure used for calculation of the acute toxicity estimate of the mixture)

AMMONIUM LAURYL SULFATE

LD50 (Oral):

100 mg/kg Ratto

LC50 (Inhalation vapours):

454000 mg/l/4h Ratto

DEHYDROACETIC ACID

LD50 (Dermal):

5000 mg/kg Coniglio

LD50 (Oral):

> 1000 mg/kg Ratto

COCAMIDOPROPYL BETAINE

LD50 (Oral):

4900 mg/kg Ratto

SECTION 11. Toxicological information ... / >>SKIN CORROSION / IRRITATION

Causes skin irritation

SERIOUS EYE DAMAGE / IRRITATION

Causes serious eye irritation

RESPIRATORY OR SKIN SENSITISATION

Does not meet the classification criteria for this hazard class

GERM CELL MUTAGENICITY

Does not meet the classification criteria for this hazard class

CARCINOGENICITY

Does not meet the classification criteria for this hazard class

REPRODUCTIVE TOXICITY

Does not meet the classification criteria for this hazard class

STOT - SINGLE EXPOSURE

Does not meet the classification criteria for this hazard class

STOT - REPEATED EXPOSURE

Does not meet the classification criteria for this hazard class

ASPIRATION HAZARD

Does not meet the classification criteria for this hazard class

11.2. Information on other hazards

Based on the available data, the product does not contain substances listed in the main European lists of potential or suspected endocrine disruptors with human health effects under evaluation.

SECTION 12. Ecological information

Use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or contaminate soil or vegetation.

12.1. Toxicity

COCAMIDOPROPYL BETAINE
LC50 1 (1 - 10) mg/l 96 h fish

BENZYL ALCOHOL
LC50 - for Fish
EC50 - for Crustacea

10 mg/l/96h *Lepomis macrochirus* (Bluegill)
55 mg/l/48h *Daphnia magna*

DEHYDROACETIC ACID
EC50 - for Crustacea
Chronic NOEC for Crustacea

> 2000 mg/l/48h *Pseudomonas fluorescens*
218 mg/l *Cyprinus carpio* (Common Carp)

COCAMIDOPROPYL BETAINE
LC50 - for Fish
EC50 - for Crustacea
EC50 - for Algae / Aquatic Plants

2 mg/l/96h Fish
6,5 mg/l/48h *Daphnia*
1 mg/l/72h Aquatic Organisms

12.2. Persistence and degradability

Information not available

SECTION 12. Ecological information ... / >>**12.3. Bioaccumulative potential**

Information not available

12.4. Mobility in soil

Information not available

12.5. Results of PBT and vPvB assessment

On the basis of available data, the product does not contain any PBT or vPvB in percentage \geq than 0,1%.

12.6. Endocrine disrupting properties

Based on the available data, the product does not contain substances listed in the main European lists of potential or suspected endocrine disruptors with environmental effects under evaluation.

12.7. Other adverse effects

Information not available

SECTION 13. Disposal considerations**13.1. Waste treatment methods**

Reuse, when possible. Product residues should be considered special hazardous waste. The hazard level of waste containing this product should be evaluated according to applicable regulations.

Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations.

CONTAMINATED PACKAGING

Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

Disposal methods:

Waste must be disposed of in accordance with federal, state and local environmental control regulations. Avoid dispersion and runoff of spilled material and contact with soil, waterways, drains and sewers.

Hazardous waste:

Based on the supplier's current knowledge, this product is not considered a hazardous waste, as defined by EU Directive 91/689/EEC.

Disposal methods:

The generation of waste should be avoided or minimized wherever possible. Packing: IBC container, plastic drum.

Waste packaging must be recycled.

Special Precautions:

This material and its container must be disposed of safely

SECTION 14. Transport information

The product is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.

14.1. UN number or ID number

not applicable

14.2. UN proper shipping name

not applicable

14.3. Transport hazard class(es)

not applicable

14.4. Packing group

not applicable

DL0211 - NAIL FOAM

SECTION 14. Transport information ... / >>

14.5. Environmental hazards

not applicable

14.6. Special precautions for user

not applicable

14.7. Maritime transport in bulk according to IMO instruments

Information not relevant

SECTION 15. Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Seveso Category - Directive 2012/18/EU: None

Restrictions relating to the product or contained substances pursuant to Annex XVII to EC Regulation 1907/2006

Product

Point 3

Regulation (EU) 2019/1148 - on the marketing and use of explosives precursors

not applicable

Substances in Candidate List (Art. 59 REACH)

On the basis of available data, the product does not contain any SVHC in percentage \geq than 0,1%.

Substances subject to authorisation (Annex XIV REACH)

None

Substances subject to exportation reporting pursuant to Regulation (EU) 649/2012:

None

Substances subject to the Rotterdam Convention:

None

Substances subject to the Stockholm Convention:

None

Healthcare controls

Workers exposed to this chemical agent must not undergo health checks, provided that available risk-assessment data prove that the risks related to the workers' health and safety are modest and that the 98/24/EC directive is respected.

15.2. Chemical safety assessment

A chemical safety assessment has not been performed for the preparation/for the substances indicated in section 3.

SECTION 16. Other information

Text of hazard (H) indications mentioned in section 2-3 of the sheet:

Acute Tox. 4	Acute toxicity, category 4
Eye Irrit. 2	Eye irritation, category 2
Skin Irrit. 2	Skin irritation, category 2
Aquatic Acute 1	Hazardous to the aquatic environment, acute toxicity, category 1
H302	Harmful if swallowed.
H332	Harmful if inhaled.
H319	Causes serious eye irritation.
H315	Causes skin irritation.
H400	Very toxic to aquatic life.

LEGEND:

- ADR: European Agreement concerning the carriage of Dangerous goods by Road
- ATE: Acute Toxicity Estimate
- CAS: Chemical Abstract Service Number
- CE50: Effective concentration (required to induce a 50% effect)

DL0211 - NAIL FOAM

SECTION 16. Other information ... / >>

- CE: Identifier in ESIS (European archive of existing substances)
- CLP: Regulation (EC) 1272/2008
- DNEL: Derived No Effect Level
- EmS: Emergency Schedule
- GHS: Globally Harmonized System of classification and labeling of chemicals
- IATA DGR: International Air Transport Association Dangerous Goods Regulation
- IC50: Immobilization Concentration 50%
- IMDG: International Maritime Code for dangerous goods
- IMO: International Maritime Organization
- INDEX: Identifier in Annex VI of CLP
- LC50: Lethal Concentration 50%
- LD50: Lethal dose 50%
- OEL: Occupational Exposure Level
- PBT: Persistent, bioaccumulative and toxic
- PEC: Predicted environmental Concentration
- PEL: Predicted exposure level
- PMT: Persistent, mobile and toxic
- PNEC: Predicted no effect concentration
- REACH: Regulation (EC) 1907/2006
- RID: Regulation concerning the international transport of dangerous goods by train
- TLV: Threshold Limit Value
- TLV CEILING: Concentration that should not be exceeded during any time of occupational exposure.
- TWA: Time-weighted average exposure limit
- TWA STEL: Short-term exposure limit
- VOC: Volatile organic Compounds
- vPvB: Very persistent and very bioaccumulative
- vPvM: Very persistent and very mobile
- WGK: Water hazard classes (German).

Note for users:

The information contained in the present sheet are based on our own knowledge on the date of the last version. Users must verify the suitability and thoroughness of provided information according to each specific use of the product.

This document must not be regarded as a guarantee on any specific product property.

The use of this product is not subject to our direct control; therefore, users must, under their own responsibility, comply with the current health

and safety laws and regulations. The producer is relieved from any liability arising from improper uses.
Provide appointed staff with adequate training on how to use chemical products.

CALCULATION METHODS FOR CLASSIFICATION

Chemical and physical hazards: Product classification derives from criteria established by the CLP Regulation, Annex I, Part 2. The data for evaluation of chemical-physical properties are reported in section 9.

Health hazards: Product classification is based on calculation methods as per Annex I of CLP, Part 3, unless determined otherwise in Section 11.

Environmental hazards: Product classification is based on calculation methods as per Annex I of CLP, Part 4, unless determined otherwise in Section 12.
